

LASER MAGNUM

Notes: When you reload the Laser Magnum, it costs no ammo. If you use gigawatt mode and choose only 1 target, you get to choose whether it gets 1 or 2 damage. When you play the Laser Magnum, it becomes unloaded, just like any other weapon, even though reloading it during the reload step costs nothing.

basic mode: Give 1 mark to 1 target you can see.

in gigawatt mode: Choose 1 or 2 targets you can see. Give one 2 damage and the other 1 damage.
